

# T3 ProCore™

## THE HOT TAP SYSTEM REVOLUTION

CHILLED

AMBIENT

HOT

SPARKLING

- Dispenses hot water at 92°C and then chilled or sparkling water from the same tap without heat transfer
- Sustainable and durable construction
- Energy efficient, economical and eco-friendly
- IoT-ready and comes with touchless Bluetooth® operation as standard
- Fits into same cutouts as a T2 ProCore® allowing for easy transition with no adaptation
- Ventilation kit increases efficiency by allowing a continuous cycle of cool air
- Mobile app available for download
